Interface Design Using CSS

Assignment Two

What the Font!

Description:

We all love music, but when we read the lyrics, the message can be lost. Using everything that we now know about fonts and their styling you will need to style the text to represent the emotion behind the lyrics!

Instructions:

Please read and follow the instructions below:

1. Pick a song that you love and get the lyrics. This will be the content for your webpage.
2. Using HTML structure the content using the appropriate semantic elements.
3. Add enough CSS to make the HTML structure have a pleasant appearance.
4. Use at least **two** different fonts. These can be custom fonts or Google fonts.
5. Style the text content of the site using a variety of different font properties. The idea is to communicate the feeling behind the text.
   a. Are they yelling?
   b. Is it sad or happy?
6. All CSS should be in a separate CSS file.
7. Have fun with this!
8. Validate the HTML
9. Upload the files to GitHub (server is optional) and invite me as a collaborator.

Submitting Your Work

Please follow the instructions below to submit your work.

1. Create the assignment repository on GitHub
2. Send out the invite to the repository

3. In the Assignment submission section provide the following:
   a. A link to the repository
   b. The URL to the assignment on the server (optional).

* Late submission will be subject to a deduction of 20% per day.

Evaluation:

Task	0 - 1	2 - 3	4 - 5	Mark
HTML Validation	Validation found 5 or more errors	More than 1 but less than 5 errors were found	No errors found	/5
HTML Elements	The elements were not used correctly or contained errors	Most elements were used correctly	HTML was well structured and the elements were used correctly	/5
Page Styling	Little to no CSS was applied to the structure of the page	Some styling was applied to the structure of the page	The page had a professional finish	/5
Font Families	No font families were declared or basic web safe fonts were only used	Only one custom font was used or used incorrectly	Two custom fonts were used.	/5
Font Styling	Little to no styling was applied to the fonts	The fonts had some styling	The fonts were well styled and met the requirements for the assignment	/5
File Organization	Files were not organized	Some organization was found	Files were organized	/5
Total				/30
